DEVELOPMENT REVIEW COMMITTEE APPLICATION for Review of Zoning Variances and Special Exceptions

This is not to be completed online. Please DOWNLOAD this form.

If you have applied for a Zoning Permit from the Philadelphia Department of Licenses and Inspections and received a Refusal or Referral, you may choose to file an appeal. If you do, you will be referred to the Chestnut Hill Community Association for RCO review. To initiate that process we ask you to fill out this application, and submit it to us, along with a copy of the Refusal or Referral, your Appeal, plans (site, floor, elevation), photographs of the property and surrounding area, and any other documentation you feel would be helpful.)..

Please send this information to RCO-CHCA@chestnuthill.org or deliver it to 8434 Germantown Avenue. 19118

If you have questions, please call the Executive Director at Town Hall (215-248-8811) or e-mail RCO-CHCA@chestnuthill.org. In order to be included on our meeting agendas, you need to initiate contact with us no less than 8 days in advance of the next DRC meeting, which is held on the third Tuesday of every month.

The CHCA review process provides opportunities for your application to be reviewed by professionals, community members and organizations, over the course of 3-5 regularly-scheduled meetings. The process typically spans 37-44 days. Occasionally, revisions are requested that may lengthen the process. Participation in the review process is the only way your application can receive a letter of support from the CHCA Board.

We appreciate your submitting this information early in your process, even preliminary to having a ZBA hearing date. The sooner we hear from you, the better we are able to help you in this process. We look forward to meeting with you, and helping you make a positive contribution to Chestnut Hill. Thank you.

The development team has studied the existing site and there are a total of 89 trees that were measured and tagged as part of this development. Seven (7) trees are heritage which the team is not proposing to remove any them. Overall, we will be removing 110.5 total caliper inches of trees from the site and replacing with 60 total caliper inches of new trees.

- 19) **Wissahickon Watershed:** Chestnut Hill lies entirely within the Wissahickon Watershed. A City of Philadelphia ordinance restricts all development within the Watershed with regard to set backs from water courses, site clearing and construction activity on steep slopes (greater than 15 percent), impervious coverage ratios, and some earth-moving activity. Describe the effect of your proposed project on the Watershed. Contact 215-247-0417 – for the Friends of the Wissahickon for more information

The site lies in category 5 designation of the Wissahickon Watershed, which does not require additional design considerations from PWD. However, the site will utilize an engineered rain garden that will collect and filter the storm water for the entire site. While there are steep slopes on site, the slopes were a result of man made construction. The design will utilize retaining walls and drainage connected to the rain garden.
